PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building modern, responsive full-stack web applications using React, Node.js, Express.js, and MongoDB. Proficient in real-time systems, RESTful APIs, and user-focused UI development with Tailwind CSS and animations. Currently pursuing a BSIT degree and actively seeking internship or junior-level opportunities to contribute and grow professionally.

MERN Stack Developer

Self-Employed

2023 – Present

- Designed and developed full-stack web applications using MongoDB, Express.js, React, and Node.js.
- Implemented real-time features using Socket.io for live communication in web applications.
- Built responsive and accessible user interfaces using React and Tailwind CSS.
- Integrated third-party services including Cloudinary for media storage and management.
- Focused on clean, maintainable code and positive user experience across all projects.
