Professional Summary

I'm a MERN Stack Developer who builds simple, useful web apps. Experienced with MongoDB, Express, React, and Node.js, I focus on clean, easy-to-understand code. I'm enhancing my frontend skills to create attractive, user-friendly websites and enjoy learning to grow as a developer daily.

Experience MERN Stack Developer

- Built full stack web applications using MongoDB, Express.js, React, and Node.js
- Developed responsive and user friendly frontend interfaces
- Created REST APIs and handled database integration
- Focused on clean code and improving application performance

Education

Bachelor of Science in Information Technology
The Superior University
October 2024 – October 2028

Technical Skills

MongoDB, Express.js, React.js, Node.js, Socket.io, JavaScript, HTML, CSS, Tailwind CSS, JWT, Cloudinary, Nodemailer

Projects

Airbnb MERN Clone

- Developed a full stack Airbnb clone with authentication and property listing
- Implemented booking system and price filtering features
- Integrated Cloudinary for image upload and JWT for authentication
- Used Nodemailer for email functionality

Chat Application

- Built a real time chat application using MERN stack and Socket.io
- Implemented user authentication and live messaging
- Added online user status with a clean interface

Portfolio Website

- Created a personal portfolio using React and Tailwind CSS
- Designed responsive layout with smooth animations
- Showcased projects and skills for job opportunities
